# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

The on-site visit for the Prison Rape Elimination Act (PREA) compliance audit of Kintock Bridgeton, (Kintock), located in Bridgeton, New Jersey (NJ), was conducted 03/06-03/07/2018 by The Nakamoto Group, Inc. certified auditor James L. Roland Jr. An in-briefing meeting was held with the Site Administrator, Corporate Compliance Officer, Program Director/Work Release/Acting Bureau of Prisons (BOP) Director, Program Director/Treatment, Director of Operations, Corporate Director/Facilities, Corporate Training Coordinator and the Corporate Director/Training. The standards used for this audit became effective August 20, 2012. This auditor discussed the information contained in the Pre-Audit Questionnaire with the facility PREA Coordinator. The Corporate Chief Executive Officer and the Corporate Director/Quality Assurance/PREA Coordinator were interviewed telephonically. As part of the audit, a review of all agency and local facility PREA policies was conducted, as well as a tour of the facility.

A total of 26 residents were interviewed, which included two disabled residents, one resident with vision and mobility impairment and one resident with cognitive impairment. No residents self-disclosed as being members of the LGBTI community and no residents were Limited English Proficient (LEP). The facility has no segregated housing and no youthful residents are housed at the facility. No residents reported sexual victimization during the risk screening process. One resident refused to be interviewed.

A total of 28 staff were interviewed, to include staff from all three shifts, five administrative staff, one contract medical staff person and eight specialized staff. The administrative staff interviewed included the PREA Coordinator, Site Administrator, Program Director/Treatment, Corporate Director/Facilities and the Human Resource Administrator (HRM). A tour was conducted of the entire facility and included all living areas, support services and all operational areas. During the tour, the auditor was accompanied by the PREA Coordinator, Site Administrator, Program Director/Treatment and the Director of Operations.

During the auditing period, there were no allegations of sexual abuse or sexual harassment.

## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the resident, resident or detainee population, numbers and type of staff positions, configuration*

*and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

Kintock Bridgeton opened in 1999 and is located adjacent to South Woods State Prison. The facility houses minimum custody residents and has a design capacity of 531. The current resident population is 432. The facility employs 103 staff. The facility includes two single-story buildings housing adult men and women. At the time of this audit, the facility only had one female resident. Each building includes five housing dorms split into four pods to accommodate approximately 48 residents. There are a total of ten resident bathrooms (with showers, sinks and toilets); all showers and toilets have privacy curtains and doors. Laundry facilities, telephones, recreation areas, computer labs, class rooms, private counseling rooms and libraries are located in each building for resident use. Residents also have access to weekly contracted commissary and check cashing services. Building I provides space for work release services for the BOP contract. In addition, it houses male and female residents and the licensed treatment services for the New Jersey Department of Corrections (NJDOC) program for adult males. The program is licensed by the Division of Mental Health and Addiction Services. In Building II, The Kintock Group Bridgeton facility provides work release services to adult males via a NJDOC work release contract and to parolees via the New Jersey State Parole Board (NJSPB) contract, "Stages to Enhance Parole Success." Resident living areas are separated by these contracts.

The contact between the NJDOC and Kintock outlines the mandates of this standard. The contract requires each facility to review the staffing plans on an annual basis. Interviews with the Site Administrator and executive staff confirm compliance with the PREA and that other safety and security issues are always a primary focus as they consider and review their respective staffing plans. The Site Administrator meets daily with his executive staff to address staffing issues as it relates to the PREA. The facility has been provided with all necessary resources to support the programs and procedures to ensure compliance with PREA standards. The audit included an examination of all video monitoring systems, staff interviews and rosters. Supervisory/Administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented. Interviews with staff confirm unannounced rounds to all areas of the facility occur on a weekly basis, with no warning to staff. Kintock is a minimum security facility with video cameras visible throughout the facility. The facility does have convex mirrors to aid in areas where there are numerous corners. Staff supervision was also increased in those specific areas to enhance resident security.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

## Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Kintock Policy 8.02 (d) and 11.08 (a) and (e) address the requirements of this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff indicated they received cross-gender pat search training during initial and annual training. The auditor observed that each unit has individual shower stalls for privacy while showering. The facility has implemented a policy that all staff of the opposite gender working the unit will announce themselves prior to walking the unit to allow residents the opportunity to prepare themselves from a privacy perspective. The majority of the residents interviewed acknowledged they are allowed to shower, dress and use the toilet privately, without being viewed by opposite gender staff. Staff, along with the majority of the residents interviewed, indicated that employees of the opposite gender announce their presence before entering a housing unit. Staff were well aware of the policy prohibiting the search of a transgender or intersex resident for the sole purpose of determining the resident's genital status. During the past 12 months, there were no exigent circumstances requiring cross-gender viewing of a resident by a staff member at the Kintock Complex.

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. Kintock Policies 11.08 (e); 15.01 (a), (b), and (c) and the Resident Handbook (English and Spanish) meet the mandates of this standard. Kintock takes appropriate steps to ensure residents with disabilities and residents with LEP have an opportunity to participate in and benefit from the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings and resident handbooks are in both English and Spanish. The above mentioned documents were submitted to and reviewed by the auditor. Employees interviewed were well aware of the policies that, under no circumstances, are resident interpreters or assistants to be used when dealing with PREA issues. The Kintock Group has set up a blanket purchase agreement for on-demand over-the-phone interpreter services, which are available to all Kintock residents. Lingualinx provides this service for residents who do not have a basic command of the English language. The auditor called the Lingualinx number and determined that it was in working order. There were no LEP residents housed at the facility during this audit. Documentation reviews and staff interviews support a finding that the facility is in compliance with this standard.

Kintock Polices 3.11 (a) and (e) address the mandates of this standard. The HRM was interviewed and stated that all components of this standard have been met. All employees, contractors, and volunteers have had background checks. The BOP regional office and NJDOC staff conduct background checks before approving staff promotions or hires. A tracking system is in place to ensure that updated background checks are conducted every five years. Policy clearly states the submission of false information by any applicant is grounds for termination. Kintock makes its "best efforts" to contact all prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. The agency also provides information on substantiated allegations of sexual abuse/sexual harassment on a former employee, when requested from an employer for whom such employee has applied to work, unless prohibited by law. Appropriate licensing and certifying agencies are notified when professional staff members are terminated for substantiated allegations of sexual abuse/sexual harassment. Documentation on file supports a finding that the facility is in compliance with this standard.

The MOU is exclusive for community medical facility, Inspira Regional Medical Center, Vineland, NJ. The BOP also requires that the facility use Inspira Regional Medical Center, Vineland, NJ. This medical facility has been identified by the NJDOC via Internal Management Procedure MED.MLI.007 as the designated Sexual Assault Nurse Examiner (SANE) certified facility for use by NJDOC facilities in that region. The auditor interviewed the medical staff at Inspira Region Medical Center regarding the process and qualifications of their SANE program. Facility policy and procedure require that the parole component utilize the same medical facility and support services. Forensic examinations are not conducted at the facility. Kintock Policy 3.05 provides supporting language for this standard. The facility does not conduct criminal or administrative investigations. Allegations of sexual abuse or sexual harassment are referred for investigation to the NJDOC, BOP or the NJSPB depending on the affected resident population. All contractual authorities have investigative units. If the resident is under the BOP, the Special Investigative Services (SIS), the Office of Internal Affairs (OIA), the Federal Bureau of Investigation (FBI) and the Office of the Inspector General (OIG) conduct all investigations. NJDOC has established Policy and Procedures (ADM.006.011 - Investigations by the Special Investigations Division) which provide language that fully supports compliance with this standard. If a resident is under the jurisdiction of the NJSPB, investigations are conducted by the local Bridgeton Police Department. Kintock and NJDOC have made public postings (web based) consistent with this standard. Targeted staff interviews reflect practice that is consistent with elements of this standard. There have been no referrals to any of these agencies this past reporting period.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Kintock Policy 16.00 and 3.05 address the provisions of the standard. Residents are screened using a PREA Screening Checklist. The checklist covers all of the criteria of risks identified in the standard. Intake screenings are conducted within 72 hours of the residents entering the facility. A review of assessment documents supports that the facility conducts initial assessments and the 30 day reassessment. Additional reassessments are conducted upon discovery of additional information that could result in risk to the resident. Kintock Policy 16.00 and 3.05 address the provisions of the standard. Agency and facility policy require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education and other program assignments. The goal is to keep residents at high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. There were no residents who self-identified as being transgender or intersex incarcerated at Kintock. During the audit, risk management staff indicated transgender and intersex residents would be reassessed biannually and their own views regarding his/her own safety would be given serious consideration. They would be given the opportunity to shower separately from other residents.

Residents may file a grievance; however, all allegations of sexual abuse/sexual harassment will immediately be referred to the Site Administrator. Residents are not required to use the formal grievance process. Policy allows a resident to submit a grievance, alleging sexual abuse, without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation

of the allegation by either staff alleged to be involved or any staff who may be under their supervision. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension, due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by residents in which the resident declined third-party assistance. Information is presented in the orientation video they are required to watch and it is also located in their resident handbook.
